

## **Forensic chemistry**

The Department of Chemistry-Biology, Université du Québec à Trois-Rivières, invites applications for a tenure-track position as assistant Professor in Forensic Science (Forensic Chemistry). We seek an individual with a Ph.D. in chemistry, in Forensic Science or a related field, a relevant research experience in Forensic Chemistry, a strong publication record and a commitment to excellence in teaching and graduate student supervision. The candidate is expected to join our team and work at the establishment and development of our new curriculum in Forensic Science at the B.Sc. as well as the M.Sc. levels. This unique University program in the province of Québec was established in close collaboration with the École nationale de police du Québec and the Laboratoire des sciences judiciaires et de médecine légale as well as with the assistance of the École des sciences criminelles de l'Université de Lausanne. While working at the organization of the contents and the creation of links with our local partners involved in Forensic Science, the selected candidate would be more specifically responsible for the establishment of the M.Sc. Forensic Science program and expected to define the nature of Forensic Research performed at the Université du Québec à Trois-Rivières. He will benefit from all the analytical equipment of department. The candidate is expected to join the department as soon as possible but not later than January 1<sup>st</sup> 2013. Fluent French speaking is mandatory but the Department will be supportive of any excellent candidate needing improvement in linguistic skills.

Applications, including a letter highlighting research and teaching interests, a complete CV, two recommendation letters and reprints of up to five publications, should be received by August 15<sup>th</sup> 2012 and should be address to:

M. Éric Hamelin, Directeur,  
Service de la Gestion des Personnels
